DETAILED ACTION

Election/Restrictions

Applicant's election of Species I, Subspecies B in the reply filed on 1/21/2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 3-20, 23, and 26-40 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species and subspecies, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 1/21/2005. Note that the claims require specifics not disclosed in the embodiment of figure 5.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2, 21-22, and 24-25 are rejected under 35 U.S.C. 102(b) as being anticipated by DE 3529743.

DE 3529743 discloses all the limitations of the instant claims including; an engine 10, an intermediary device driven by said engine; a brake power source 28 driven by said intermediary device, a brake system powered by said brake power source; and a controller 53 in communication with said intermediary device, said controller, in response to a minimum engine speed, causing said intermediary device to drive said brake power source at a desired rate.

Regarding claim 24, see hydraulic pump 95 and hydraulic motor 100.

Regarding claim 25, see the reservoir 13.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. DE 3541446, DE 4040597 and US 3542173. All show hydrostatic power systems.
